accoya®

Approved manufacturer

ENDURING

quality Accoya® wood structures, for years to come

Manufactured by

Accoya® and the Trimarque Device are registered trademarks owned by Titan Wood Limited, a wholly owned subsidiary of Accsys Technologies PLC, and may not be used or reproduced without written permission. Accoya wood should always be installed and used in accordance with the written instructions and guidelines of Accsys Technologies and/or its agents (available upon request). Accsys Technologies accepts no liability for any defect, damage or loss that may occur where such written instructions and guidelines are not adhered to.

ACCOYA®

delivers quality that lasts

Accoya turns everything you know about wood on its head.

Through a revolutionary scientific process called acetylation, it modifies wood to give it properties that exceed hardwoods, and other materials such as PVC and aluminium.

Here are some of the benefits of Accoya for your wooden structures:

Performance

Accoya wood is highly stable and durable. It does not shrink, swell or distort, therefore maintaining its original structure all year round. A 50 year warranty also means you'll get to enjoy your Accoya for a lifetime.

50 YEAR ACCOYA WOOD WARRANTY

HIGHLY STABLE

HIGHLY DURABLE

Finish

Accoya is the perfect material for coatings. Because of Accoya's amazing stability, coatings last longer than on other wood species, meaning lower maintenance in years to come.

IDEAL FOR COATING

VERY LOW MAINTENANCE

Sustainability

Accoya is a natural wood product sourced from sustainably managed FSC® certified forests. With no plastic, resin or other harmful additives Accoya is 100% non toxic, making it the ideal environmental choice.

SUSTAINABLY SOURCED

LOW ENVIRONMENTAL IMPACT

NON TOXIC

About us

Vicbeam is the leading structural glulam company located in Melbourne, Victoria Australia and has been manufacturing and supplying timber beams for a multitude of various applications in the construction industry for over 15 years.

We accommodate all types of structural timber designs and work with leading architectural practices and various routes to markets across Australia.

Vicbeam has expanded its expertise on a project by project basis with engineers, architects and builders from the concept and design stage all the way through to glulam manufacturing and in house pre-fabrication.

Vicbeam is an approved manufacturer of glulam and are certified to provide glulam solutions and manufacture with Accoya® wood, setting a new standard for structural glulam in the Australian and New Zealand commercial market.

The proven performance of Accoya wood is outstanding for architects, builders, and engineers seeking to combine creative free form with leading structural performance, ideal for all types of exterior applications in structural timber design.
